SPECIAL WASHING INSTRUCTIONS

Before you “set” the fabric color, please try on your seat covers. Once you have tried them on and are satisfied with the fit, please use the following instructions.

In any convenient tub or sink, put enough COLD WATER to soak each seat cover. Dissolve one tablespoon salt, per seat cover, into the water. Allow seat covers to soak in the cold salt water for at least 30 minutes. After soaking, wash in a conventional home washing machine. (NO BLEACH) Use only cold water on gentle cycle setting. To dry, you may use your home dryer and tumble dry on “Air” or “Low Heat” setting. You may also let the covers drip dry on a clothes line, weather conditions and temperature permitting.

NOTE: IN A SHORT TIME, WITH NORMAL USE, YOUR SEAT COVERS WILL CONFORM TO THE SEAT CONTOUR.
