Police Equipment - Electrical - Power Distribution Centers

Part Number  82213017AB

The Power Distribution Center contains the fusing and relays for circuits contained in the wire harness.

The Power Distribution Center contains the fusing and relays for circuits contained in the Wire Harness. The PDC is supplied from the battery with two 100-amp main fuses. These fuses are separated to accommodate/control some circuits with a timing device.

Install Time: 0.5 hrs.
